SUMMARY

Final-year B.Tech student with a strong interest in Data Analytics, Business Analytics, AI, and software development. Skilled in Python, Java, SQL, web technologies, and cloud fundamentals, with hands-on experience through academic and personal projects. Strong in problem-solving, teamwork, adaptability, and continuous learning, with a focus on applying technical skills to real-world problems.

EDUCATION

Bachelor of Technology (B.Tech)
Kishkinda University , Bellary
CGPA: 8.02
Expected Graduation: 2027

SKILLS

- Programming: Python, Java, C
- Data & Analytics: Excel, SQL, PowerBI
- Web: HTML, CSS, JavaScript, React.js
- Cloud: AWS Cloud Computing
- Tools: Git, GitHub, VS Code, MS Office, Canva
- Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Time Management

LANGUAGE

- English
- Kannada
- Telugu
- Hindi

PROJECTS

- **WeatherGPT – Conversational Weather AI**
  Developed a conversational AI weather application using React, Node.js, MongoDB and Gemini, providing weather information, forecasts, alerts and natural-language weather assistance.
- **Zippy Cart – E-Commerce Website**
  Developed a responsive e-commerce platform with product browsing, comparison and shopping features, focusing on a simple and user-friendly online shopping experience.
- **CineVerse – Movie Recommendation System**
  Developed a machine learning-based movie recommendation system using Python and Streamlit that provides personalized movie suggestions based on user preferences and movie similarity.
- **HomelyHub – Property Booking Platform**
  Developed a full-stack property booking platform using MongoDB, Express.js, React.js and Node.js, enabling users to browse properties, manage bookings and interact with property listings.
- **NeoSched – Smart Academic Scheduling System**
  Developed a Django-based academic management system with role-based Admin, Teacher and Student access, automated timetable generation, classroom management and attendance tracking.

INTERNSHIPS

NASSCOM FutureSkills/SmartBridge -AWS Cloud Computing

- Completed a virtual internship focused on AWS Cloud Computing, gaining practical exposure to cloud concepts, AWS services and cloud-based solutions.

Kinetrexa — AI & Machine Learning

- Worked on AI/ML applications using Python, Machine Learning and Streamlit, developing CineVerse (movie recommendation) and ChurnIQ (customer churn prediction).

Emertxe — MERN Stack

- Developed HomelyHub – Property Booking Platform using MongoDB, Express.js, React.js and Node.js, gaining hands-on experience in full-stack web development.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- Oracle Data Science Professional – 2025
- DevOps Foundation Certification – Infosys Springboard
- NxtWave MCP Workshop – Build AI Automations That Work For You
